

alternative asset management

Sun Tech International Wealth Management specializes in systematic asset management within the global interbank foreign exchange markets.

We offer a number of innovative services to meet the requirements of the world's most demanding investors, from short, medium and long-term money management programs to customizable programs to fit even the most progressive minds. Each investment program is supported by our principals' substantial market expertise and concrete performance, giving investors a level of confidence needed to be diversified in the markets, and we constantly strive to anticipate the rapidly changing needs of our clients and to develop new services to meet these needs. As a by-product of our trading and money management research, we offer proprietary analytical software tools to assist Commodity Trading Advisors and sophisticated investors throughout the world to identify market opportunities when these conditions present themselves.

Our foundation was built on the concept that in order for business to persist, everyone connected within the process circle must benefit from the service or business in the long run becomes ineffective. By applying this philosophy we have generated a business that will sustain time and symbolize success.

Our Products are unmatched in the financial industry, offering client's a path to financial independence, reliable and consistent returns, and unsurpassed growth potential.

feeling different today?

“Our clients’ interests always come first, and we are committed to your success”

“Recognizing success is a concentrated effort, but attaining success is our job”

Our clients are the single most important asset to our success, and are the necessary building blocks for continuous growth. Our business is built around our clients and their concerns are our concerns.

Our high performance team structure allows each team member to provide a customer-focused, highly responsive, and personalized service tailored to fit each and every client. In the end, the ultimate goal is to offer our clients the single best investment experience and to help enrich their lives as much as we can.

Philosophy I

a passionate belief that value is created by focusing on four committed fundamentals: solid management, operational excellence, optimal capital structure, and a sound, long-term investment program

Philosophy II

Management is our partner in creating value. Serving our clients is our basic purpose. We believe superior service is the chief contributor to our growth and profitability. Best way to keep competitive edge is to communicate effectively and frequently with our clients.

STI profile

Sun Tech International Wealth Management "STI" is an alternative asset management firm that specializes in trading the foreign exchange currency markets. STI's research and development team have over 17 years of combined experience in the global financial markets, primarily in futures and foreign exchange, with their trading and money management having been both discretionary and methodical. Together they have merged their experience, trading strategies and ideologies to create STI and the STI Osmuir Foreign Exchange Program as their premier alternative asset management program.

STI primarily provides alternative asset management. We also provide other market specific services such as world-class market advisory, market research, newsletters, and industry consultations. Our progressive market techniques and cutting-edge trading systems and psychology workshops have received rave reviews due to the comprehensive nature of the events. The STI experience is so remarkable, that we urge people to see it for themselves first hand.

Our strategically designed investment programs are based on arbitrage market concepts. We employ sophisticated trading methodologies using a digital signal processing (DSP) program that indicates to our tracking systems to execute multiple contract orders. Our unique methods have generated profitable trading results across all currency pairs as well as other global markets while using diverse strategies. Our professionally managed programs are thoroughly designed using systematic investing techniques that have worked across a variety of asset classes in an assortment of market environments. When applied to global currencies, our highly disciplined methods of choice are a viable investment alternative for both private and institutional investors especially in today's indecisive markets.

Our goal is to provide superior return to our clients. We take great pride in the professional quality of our work. We have an uncompromising determination to achieve excellence in everything we take on. Quality is the most essential underlying characteristic that separates us from other companies. Our ultimate goal is to become the undisputed leader in the industry while providing our clients with profound expertise.

Philosophy III

We are “involved”; patient investors, not short term answers.
We approach each investment as a long-term commitment.

mission

To consistently provide superior investment returns by identifying and capitalizing on statistically favorable risk to return opportunities in global markets, with preservation of capital being the primary consideration. Channel this passion into the markets by helping others achieve their financial solvency by thinking intuitively and long-term.

STI Wealth Management’s mission is to foster due diligence by providing superior products that seek out ideal opportunities. We offer a broad range of investment products that target returns in excess of their benchmarks while efficiently managing risk.

We strategically work to distinguish which services are ideal for each particular client. With numerous services to offer we construct our recommendations to fit each and every client’s lifestyle and needs, using customized strategies, innovative approaches, and revolutionary methods.

The cornerstone of our Team’s practice is to provide Comprehensive Wealth Management Services to our clients. We empower our clients to attain their financial goals and objectives through Professional Consultation, Financial Planning and Competent Analysis, consistent with STI Wealth Management’s principles.

To provide our customer’s with unsurpassed service and reliability. To be responsive in meeting the customer needs with new products and services. And above all be honest and trustworthy with all daily business activities with our customer’s.

Because when the day is over, it is not our products that improves your way of life, it’s **our people**.

every step is a calculated step

STI WEALTH MANAGEMENT, INC.

By placing the interests of our clients first, we serve the best interests of our employees, our shareholders and our communities, as well as our clients
